

Questionnaire: Implementation of EU Recommendation (2002/413/CE) ICZM and ICZM Protocol for the Mediterranean

Vers 10 – 20/12/2010

Implementation of EU Recommendation (2002/413/CE) ICZM and ICZM Protocol for the Mediterranean

QUESTIONNAIRE

on integrated coastal zones management implementation progresses

Introduction

MAREMED – Maritime Regions cooperation for Mediterranean, is a project started in 2010 and co-funded by the MED Programme, that involves 15 partners among Regions and local administrations from France, Italy, Spain, Greece and Cyprus together with the Conference of Peripheral Maritime Regions (CPMR)

The project is dealing with the following themes: maritime policy governance, the integrated management of coastal and maritime areas, fisheries, adaptation to climate change in coastal areas, efforts to reduce pollution and data management.

Its objective is to develop tools for enhancing and coordinating regional, European and Mediterranean policies on these six thematic strategies

Within the first work phase (the present one) it will be carried out an overview of the policies implemented and their governance by the project partners. In the second phase will identify pilot coastal zones in which promote transnational management initiatives and share operational tools to aid in decision-making for the six thematic strategies.

Preparation and aim of the Questionnaire

This questionnaire has been elaborated by Emilia-Romagna Region on the basis of the UE ICZM Recommendation and the ICZM Protocol for the Mediterranean. It has been presented to the EC DG Environment and integrated after this consultation. It has also been presented to PAP/RAC and compared with the Questionnaire elaborated in the 7th FP project Pegaso. The Questionnaire has been presented to the MAREMED partners in the meeting held in Marseille the last 26 November and has been modified/integrated on the basis of the discussion.

The aim of the Questionnaire is to create a picture of the coastal status, pressures, future trends in the MAREMED partners as well as in the European Regions that voluntarily will take part in this process.

The Questionnaire will contribute to create an informative framework useful for decision makers at regional, national and European level. It could contribute to the elaboration of the next financial period (2014-2020) related to ICZM implementation.

Questionnaire: Implementation of EU Recommendation (2002/413/CE) ICZM and ICZM Protocol for the Mediterranean

Vers 10 – 20/12/2010

The outputs of the Questionnaires will be made available to the European Commission for the impact assessment evaluation on ICZM that is currently ongoing.

The results will be also published and forwarded to UNEP MAP PAP/RAC in Split and to other relevant actors in ICZM implementation in the Mediterranean as well as in Europe.

Partners and voluntary regions are kindly asked to fill-in the questionnaire and send back it to Emilia-Romagna Region before the 28th of January in your language and before the 15th of February in English 2011.

What is ICZM?

The international and EU Community framework in ICZM matter it is constituted mainly by the followings:

- the 1976 Barcelona Convention for marine environment protection in the Mediterranean sea, last amended in 1995, and relative Protocols (ICZM Protocol on integrated coastal zone management, LBS Protocol on pollution from land-based sources and activities, SPA/BD Protocol concerning specially protected areas and biological diversity;
- the Recommendation concerning the implementation of integrated coastal zone management in Europe (2002/413/CE);
- the Framework Directive on the European strategy for the marine environment (2008/56/CE).

The ICZM protocol was signed by all the Mediterranean Countries and by the EU on the 21st January 2008 in Madrid. It is now in the ratification process by each Country. The EU ratified it on the 13th of September 2010, and it is now binding for Member States.

Following the definitions contained in the ICZM Protocol:

“Integrated coastal zone management” means a dynamic process for the sustainable management and use of coastal zones, taking into account at the same time the fragility of coastal ecosystems and landscapes, the diversity of activities and uses, their interactions, the maritime orientation of certain activities and uses and their impact on both the marine and land parts.

“Coastal zone” means the geomorphologic area either side of the seashore in which the interaction between the marine and land parts occurs in the form of complex ecological and resource systems made up of biotic and abiotic components coexisting and interacting with human communities and relevant socio-economic activities.

Following EUROSION definition:

“coastal Resilience” means the inherent ability of the coast to accommodate changes induced by sea level rise, extreme events and occasional human impacts, whilst maintaining the functions fulfilled by the coastal system in the longer term. (The concept of resilience is particularly important in the light of the predictions for climate change).

Questionnaire: Implementation of EU Recommendation (2002/413/CE) ICZM and ICZM Protocol for the Mediterranean

Vers 10 – 20/12/2010

Questionnaire Sections

0 – Status of coastal areas

Information on coastal area status with reference to the geomorphologic and environmental indicators and to the main human activities and pressures.

1 – Summary

Synthesis description of initiatives undertaken and progress achieved in ICZM process implementation and of ICZM strategy tool adopted. Information about ICZM Protocol ratification and eventual undertaken initiatives.

2 – Activities undertaken in order to support ICZM implementation

Information for deepening some aspects described in the summary of Section 1

3 – Evaluation on ICZM progresses and coastal zone governance status

Information aimed to give an overall evaluation of progresses achieved in terms of ICZM principles and strategy implementation, governance and sustainable development of coastal zone

4 – Governance of ICZM

See the enclosed Questionnaire “Governance of ICZM”.

5 - Information on questionnaire compilation

Information on questionnaire compilation procedure, subjects involved and contact person

SECTION 0 – Status of coastal areas

In this section the partners describe the status of their coastal areas with reference to the geomorphologic and environmental indicators and to the main human activities and pressures. The ICZM Protocol provisions related to the coastal system will be also evaluated.

Note: From the ICZM Protocol

Article 3

GEOGRAPHICAL COVERAGE

1. The area to which the Protocol applies shall be the Mediterranean Sea area as defined in Article 1 of the Convention. The area is also defined by:
 - (a) the seaward limit of the coastal zone, which shall be the external limit of the territorial sea of Parties; and
 - (b) the landward limit of the coastal zone, which shall be the limit of the competent coastal units as defined by the Parties.
2. If, within the limits of its sovereignty, a Party establishes limits different from those envisaged in paragraph 1 of this Article, it shall communicate a declaration to the Depositary at the time of the deposit of its instrument of ratification, acceptance, approval of, or accession to this Protocol, or at any other subsequent time, in so far as:
 - (a) the seaward limit is less than the external limit of the territorial sea;
 - (b) the landward limit is different, either more or less, from the limits of the territory of coastal units as defined above, in order to apply, *inter alia*, the ecosystem approach and economic and social criteria and to consider the specific needs of islands related to geomorphological characteristics and to take into account the negative effects of climate change.
3. Each Party shall adopt or promote at the appropriate institutional level adequate actions to inform populations and any relevant actor of the geographical coverage of the present Protocol.

Article 8

PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

1. In conformity with the objectives and principles set out in Articles 5 and 6 of this Protocol, the Parties shall endeavour to ensure the sustainable use and management of coastal zones in order to preserve the coastal natural habitats, landscapes, natural resources and ecosystems, in compliance with international and regional legal instruments.

Questionnaire: Implementation of EU Recommendation (2002/413/CE) ICZM and ICZM Protocol for the Mediterranean

Vers 10 – 20/12/2010

2. For this purpose, the Parties:

- (a) Shall establish in coastal zones, as from the highest winter waterline, a zone where construction is not allowed. Taking into account, *inter alia*, the areas directly and negatively affected by climate change and natural risks, this zone may not be less than 100 meters in width, subject to the provisions of subparagraph (b) below. Stricter national measures determining this width shall continue to apply.
- (b) May adapt, in a manner consistent with the objectives and principles of this Protocol, the provisions mentioned above:
 - 1) for projects of public interest;
 - 2) in areas having particular geographical or other local constraints, especially related to population density or social needs, where individual housing, urbanisation or development are provided for by national legal instruments.
- (c) Shall notify to the Organization their national legal instruments providing for the above adaptations.

ICZM Protocol															
<p>0.1 Did you officially defined the coastal area? If yes, how is it defined (i.e. 500 m or 1500 m from seashore, administrative boundaries, public domain...)? <i>(also with reference to ICZM Protocol)</i></p>	<table border="1"> <tr> <td><input checked="" type="checkbox"/></td> <td>No</td> </tr> <tr> <td></td> <td>If no, is its definition in process?</td> </tr> <tr> <td></td> <td>Please describe</td> </tr> <tr> <td></td> <td></td> </tr> <tr> <td><input type="checkbox"/></td> <td>Yes</td> </tr> <tr> <td></td> <td>Please describe:</td> </tr> </table>	<input checked="" type="checkbox"/>	No		If no, is its definition in process? SECTION 1 – Summary

1.1 - With reference to regional competences / or policies / or knowledge/ please provide a synthesis of initiatives undertaken and progress achieved, that can be led back to ICZM principles and objectives.

Please provide a brief description of Recommendation 2002/413/CE implementation process in your coastal zone.

Please give explicit indication on the chosen strategy and the tool finally/eventually adopted (i.e. ICZM Regional Strategy, ICZM Regional Action Plan, other forms...)

La Regione Lazio ha iniziato già nel 2001 a implementare una metodologia per stabilire i limiti di utilizzazione e i principi di gestione della risorsa “territorio costiero”, che permettesse di preservare il territorio garantendo le basi per uno sviluppo sostenibile. In particolare, con la L.R. 01/2001 e il relativo “Programma Integrato degli Interventi” la Regione Lazio inizia il suo percorso verso la Gestione Integrata delle Zone Costiere.

All'interno del Programma citato, l'azione I.1.7 «sperimentazione dell'ICZM (Integrated Coastal Zone Management) in aree pilota», lanciata nel 2005, ha previsto l'individuazione sulla costa regionale di alcune aree pilota; a sovrintendere tale processo è stata posta la Commissione ICZM, costituita da Regione Lazio, Università di Cassino, Università della Tuscia, Università la Sapienza di Roma, Osservatorio Regionale dei Litorali e Litorale Spa. Risultato dell'azione è stato la messa a punto di una metodologia scientifico-sperimentale di programmazione/progettazione integrata per lo sviluppo del litorale del Lazio e la redazione di relative linee guida, disponibili sul sito dell'Ente (“Redazione di criteri per la programmazione, pianificazione e progettazione finalizzati alla promozione di uno sviluppo eco-sostenibile dei contesti costieri locali” www.litoralespa.it).

Una specifica attenzione è stata dedicata alla gestione integrata delle coste dal punto di vista della lotta all'erosione. Con la LR 53/98 sono stati fissati i criteri per una concertazione tra Regione e Comuni Costieri e tra questi ultimi e i concessionari demaniali per una corretta manutenzione degli interventi eseguiti ed una equa corresponsabilizzazione dei portatori di interesse. Tramite lo strumento della “Convenzione” infatti si stabilisce da una parte il corretto inserimento di un intervento di difesa (tutela delle caratteristiche naturali, inserimento nel contesto urbano “waterfront”, ecc.) e dall'altra un corretto inserimento nel settore produttivo-imprenditoriale (rafforzamento del settore turistico, coinvolgimento degli operatori nella gestione e manutenzione dei litorali, ecc.). In tale contesto la Regione Lazio ha effettuato tra il 1999 ed il 2007 interventi di difesa costiera per oltre 80 milioni di euro, ricostruendo decine di chilometri di spiagge mediante interventi di ripascimento. Tali interventi hanno richiesto, fra l'altro, la predisposizione di nuove metodologie di caratterizzazione ambientale e geomorfologico della fascia costiera e della piattaforma continentale (quaderni ICRAM, Rapporto DST UniSapienza, ecc., rintracciabili su www.beachmed.eu) che costituiscono elementi fondamentali per una corretta applicazione della metodologia GIZC (...gestione e l'uso sostenibili delle zone costiere, che tiene conto nel contempo della fragilità degli ecosistemi e dei paesaggi costieri...). La Regione Lazio ha infine istituito, nell'ambito della Direzione ambiente, un gruppo operativo Centro di Monitoraggio GIZC (www.cmgizc.info) che gestisce e coordina i progetti europei in ambito GIZC (progetti BEACHMED, BEACHMED-e, COASTANCE, MEDLAB, MAREMED, POSIDEONE) e ne trasferisce i risultati alle

Questionnaire: Implementation of EU Recommendation (2002/413/CE) ICZM and ICZM Protocol for the Mediterranean

Vers 10 – 20/12/2010

strutture operative specifiche, nonché implementa uno fra i più completi WEB-GIS focalizzato sulla fascia costiera laziale .

In addition please indicate if your Country (EU member State) has ratified the ICZM Protocol (signed in Madrid January 2008) and, if the case, describe which actions/initiatives have been undertaken following the Protocol ratification.

La Regione Lazio nel 2008 ha costituito e programmato le attività del Centro di Monitoraggio-GIZC (Determinazioni Dirigenziali n° B0477 del 18/02/2008 e n° B3354 del 29/09/2008), struttura della Direzione Regionale Ambiente competente per le questioni e le azioni relative alla Gestione Integrata delle Zone Costiere, così come definite dal Regolamento ICZM del 2002 e dal Protocollo ICZM MED del 2008.

Il Centro di Monitoraggio GIZC (www.cmgizc.info) gestisce e coordina i progetti europei in ambito GIZC (progetti BEACHMED, BEACHMED-e, COASTANCE, MEDLAB, MAREMED, POSIDEONE) e ne trasferisce i risultati alle strutture operative specifiche, nonché implementa uno fra i più completi WEB-GIS focalizzato sulla fascia costiera laziale .

Il 1 giugno 2010, con Delibera di Giunta Regionale, è stata istituita la Cabina di Regia del Mare, di natura istituzionale , al fine di coordinare le politiche di intervento destinate alla valorizzazione e alla salvaguardia delle risorse strutturali ed ambientali legate al litorale del Lazio. La Cabina di Regia ha il compito di favorire il confronto tra le parti istituzionali, raccordare gli interventi dei vari soggetti interessati, coordinare l'iter procedurale del programma integrato di interventi e predisporre un Programma strategico della politica marittima del Lazio 2010-2013.

SECTION 2 – Activities undertaken in order to support ICZM implementation.

These questions are aimed to deepen some aspects describe in the previous section 1.

<p>2.1 Which is the implementation stage of the chosen ICZM strategy?</p>	<table border="1"> <tr> <td><input checked="" type="checkbox"/></td> <td>ICZM tool absent</td> </tr> <tr> <td><input type="checkbox"/></td> <td>ICZM tool under preparation</td> </tr> <tr> <td><input type="checkbox"/></td> <td>ICZM tool adopted</td> </tr> <tr> <td></td> <td></td> </tr> <tr> <td></td> <td>Year of adoption: _____</td> </tr> <tr> <td></td> <td></td> </tr> <tr> <td></td> <td></td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td>Other (please specify): Sperimentazione dell'approccio GIZC tramite la L.R. n. 1/2001 "Norme per la valorizzazione e lo sviluppo del litorale laziale"</td> </tr> <tr> <td></td> <td>Programma di attività del Centro di Monitoraggio-GIZC regionale, in linea con gli strumenti EU sull'ICZM</td> </tr> </table>	<input checked="" type="checkbox"/>	ICZM tool absent	<input type="checkbox"/>	ICZM tool under preparation	<input type="checkbox"/>	ICZM tool adopted				Year of adoption: _____					<input checked="" type="checkbox"/>	Other (please specify): Sperimentazione dell'approccio GIZC tramite la L.R. n. 1/2001 "Norme per la valorizzazione e lo sviluppo del litorale laziale"		Programma di attività del Centro di Monitoraggio-GIZC regionale, in linea con gli strumenti EU sull'ICZM
