

DIAGNOSTIC OF GOVERNANCE OF MARITIME POLICIES

The diagnostic of the governance is the base of evolution of our maritime policies. The results of this work are waited by numerous responsables of the EU administration and Mediterranean organisations. We have a lot of different cases in our partnership and we created a questionnaire for two principal visions;

- The global vision of maritime policies at the level of your organisation
- The governance of each thematic of MAREMED project

The technical coordinators of each partner will receive the complete questionnaire
The members of each thematic working group will receive just their own part.

All the questionnaires must be filled by all the partners for this diagnostic phase and they will be purposed to the 50 regions of maritime working group of the Inter-Mediterranean Commission of the CPMR.

How to fill the questionnaires ?

The files are in “Word software” and you can fill all the questions as you like and you can adapt the questions to your case if its necessary. You can give examples, internet links, maps...

Language; please, fill it in your language and in English

Visibility in the website;

We will realize a presentation document for each partner with your geographical presentation and the official documents you will send us (maritime policies, regional laws...). For that, it will be interesting to have a short summary in English of your principal documents (useful for your own website). We will realize it with you during the year 2011.

Confidentiality: If you have confidential information, just to be used by MAREMED partnership and not to be put in the MAREMED website, you can indicate it like that; (for MAREMED internal).

Return of answers;

- We thank the technical coordinators of each partner to collect the answers of all the governance files and send it to Corine LOCHET clochet@regionpaca.fr and Benoît VASSELIN bvasselin@regionpaca.fr
- For the thematic questionnaires; we thank you to send it to the thematic coordinators of MAREMED project and copy to clochet@regionpaca.fr.

The date to return it; The **Governance diagnostic** must be finished in next March in official MAREMED agenda. We need a first view of the situation before the 28th of January and we will do the analysis of your answers during February. You can send us your first version in your language in January (*sorry for Creta and Cyprus but I'm not able to read greek...Corine LOCHET*) and the English version during February, before 15th.

We will have a meeting at the beginning of March in Tuscany to discuss the results and the way of their valorisation.
