Spain	6	25	15
France	1	11	11
Sweden	1,5	14	10
Finland	1	8	7
Portugal	3,4	7	7
Estonia	3,2	8	8
Netherlands	1,7	6	6
Greece	5	8	0
Poland	6,5	40-50	0
UK	0,88	15	0
Italy	2,6	20	0
Romania	11	9	0
Lithuania	1,1	8-10	0
Ireland	1,2	6	0
Bulgaria	4	4	0
Belgium	5.8	1	0
Cyprus	2	1	0
Slovenia	3	1	0
Total	3,25	245 +-	121

Synergies CPMR - RACs

Focus on coastal communities:

- Small Scale Coastal Fisheries :
 - Need for the differentiated approach to SSCF
 - The criteria for definition of SSCF
 - SSF in post 2013 Financial Instrument
 - Links with the next generation of Axis 4

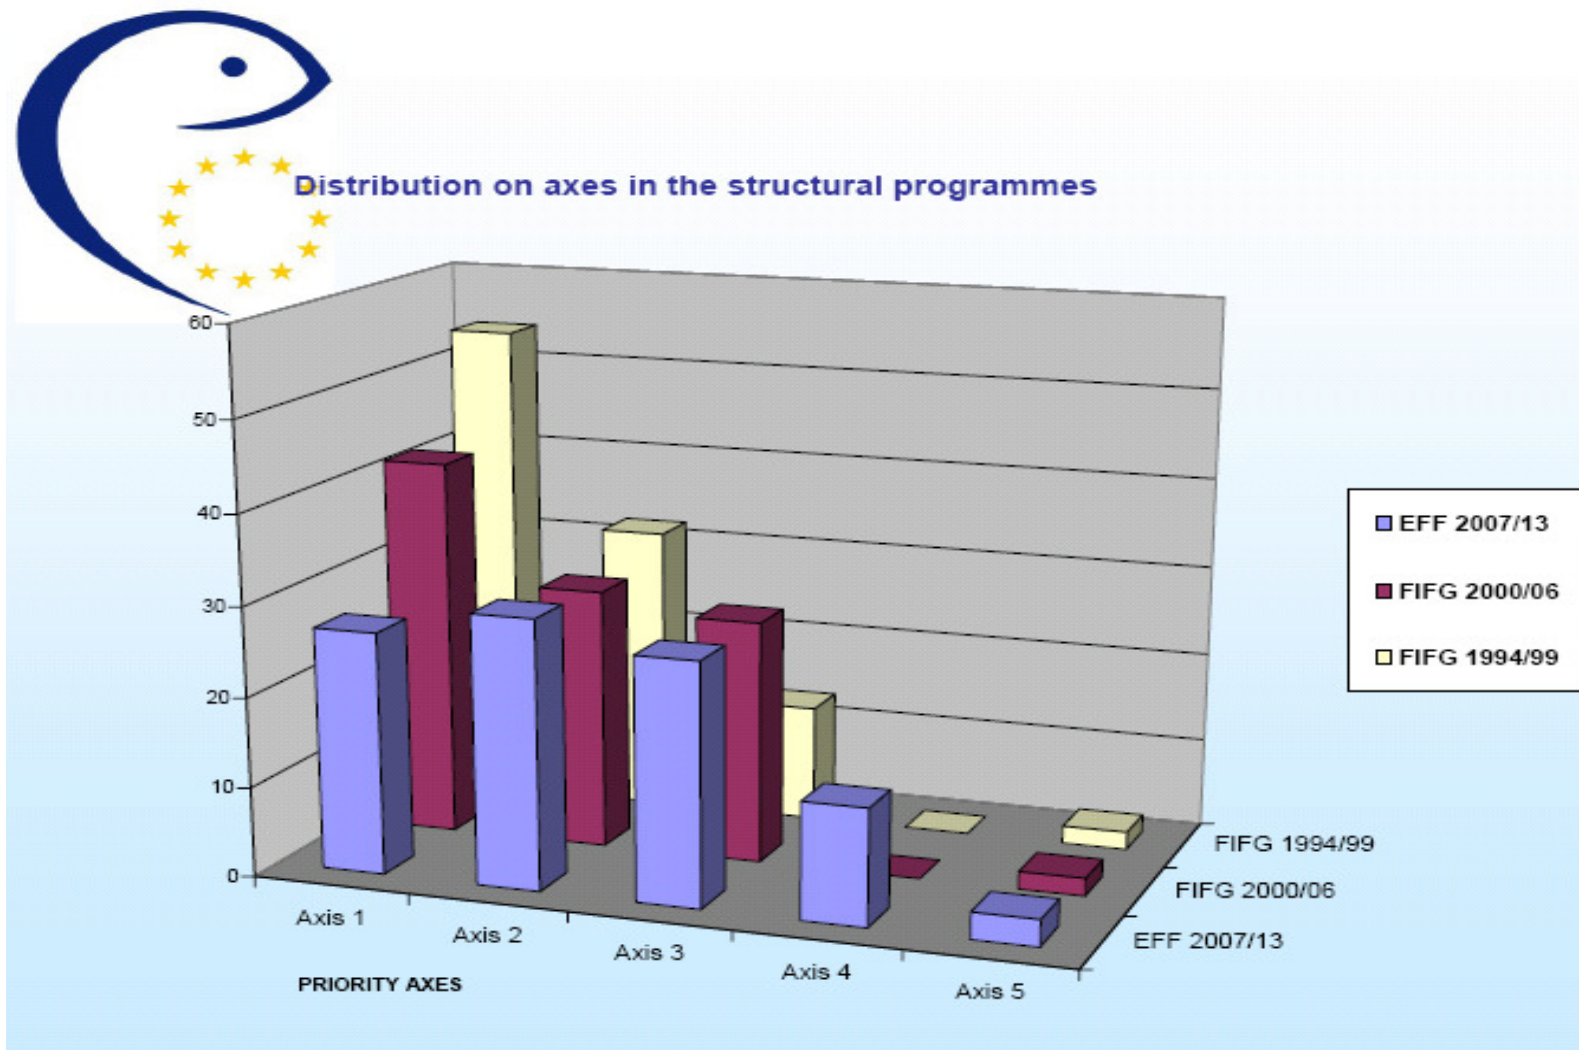

OPTION 1 – modified status quo

- Higher aid intensities for SSF than for LSF, as it is the case today;
- Implicit focus of Axis 4 on coastal communities depending on SSF
- Clearer formulation of objectives

Financial Policy in the future CFP

Financial Policy in the future CFP

- Deficit of EU Governments is set to increase to 7,5% of GDP by 2010 while public debt to 80%. This could have an impact on the overall EU budget and might increase pressure on the reduction of support to the fisheries sector (which is not among the budgetary priorities)
- New Economic Strategy for Europe– EU 2020

Financial Policy in the future CFP

- Post EFF 2013 most likely will have to:
 - Reduce cost
 - Demonstrate clear rationale and legitimacy – in line with EU 2020 objectives
 - Build much stronger link with the environmental objectives of the CFP
 - Be closely coordinated with other EU Funds

Next Steps

- Developing links between MAREMED and FARNET (ADVISORY GROUP)
- Dissemination of Political Results (EC; EP / “Intergroupe Mer”)
- Supporting links with technical and political works developed in the frame of the CPMR FIG

CRPM CPMR

MAREMED

(MAritime REgions cooperation for Mediterranean)
